

Case Management is a resource for you and your family.

If a serious illness or injury occurs, Case Management provides you and your family expert support from a case manager who is a registered nurse or licensed social worker. Your case manager can help you understand options for your care and ensure that you receive high-quality, cost effective treatment. Read below to see what others have said about Case Management!

“Case Management was a great service and wonderful to have someone in our ‘corner’ at such a confusing time.”

“My case manager was perfect in every way! She was always available, gave excellent advice and was caring. I could not ask for better.”

“My case manager was caring and extremely sensitive to my condition. She listened patiently to all my concerns. I was really impressed!”

“Case Management was a big help. I truly believe my case manager genuinely cared about me and my health. I would like to thank her for all her help in my recovery.”
